ALL ABOARD – Limpopo and KZN Bus Companies choose Questek

Limpopo based public transport companies – Mathole Bus Company, Kopano Bus Service, Madodi Bus Company and Risaba Bus Company join the increasing number of South African passenger transport companies who have opted for Questek's Wayfarer Contactless Smartcard revenue management system.

The Lowveld Bus Service in Lephalale (Ellisras) and Washesha Bus Company located in Eshowe have also awarded contracts to Questek to install the highly versatile electronic ticketing system. The Contactless Smart Card system represents a major leap forward for these bus companies

Questek's Contactless Smart Cards offer customers great flexibility. In addition to reducing the need to carry cash and allowing customers to be more flexible in their purchase of season tickets, a Smart Card system addresses the extensive potential for fraud and abuse which are inescapable with traditional paper ticketing.
